Abstract

In our country, the educational system is three-fold: the primary education, the secondary education, and the university (tertiary) education. Primary school is compulsory and free of charge. Thus, the primary education has the highest stude population. In the country where the settlement is remote and casual, it is rather difficult to build a school with five classrooms and appoint a teacher to each class. In such schools, education is carried out by only one teacher in one classroom by uniting one or more classes because of inadequate number of teachers, students and/or classrooms. Thes schools are called "Elementary school with united classes" and this type of education is called "Education in united classroom." This type of education gives rise to a lot of problems. The goal of this research is to explore difficulties and problems that classroom teachers come across in in their teaching practice in united classes.

Register
You need to register in order to be able to deposit eprints in the repository.
As a registered user you will be able to manage your eprints, up to the point of submitting them for Editorial Review. If the review is successful your eprint will be deposited in the repository, if it is unsuccessful it will be returned to you with editor comments.
In addition to managing your eprints a registered user can set up subscription options, so that email notifications are sent when new eprints are placed in the repository.
Please complete the details on this page to register with Ç.O.M.Ü. Bilgi Merkezi Açık Arşivi.
The registration process uses email to send you details of how to activate your account. You must then check your email and activate your password. Once activated you can start to use the registered features of the repository.
If you have already registered but have forgotten your username or password click here to set a new password.

Dear User,
Thank you for your interest in Ç.O.M.Ü. Bilgi Merkezi Açık Arşivi.
You now need to activate your new password, using the following URL:
http://kutuphane.comu.edu.tr/perl/confirm?userid=6&pin=8B2FEFF056622E39
Your username is: Ercan.
After you have successfully confirmed your password, you can deposit items
at the following Web address:
http://kutuphane.comu.edu.tr/perl/users/home
Once you have confirmed your identity you may also subscribe to the email
alerts service, to be automatically informed of new deposits in the
repository in your chosen subject areas in a daily, weekly or monthly
digest.
You can create a subscription by visiting the following page:

User Area Homepage - Ercan ERENSAYIN

Welcome to the registered user area at Ç.O.M.Ü. Bilgi Merkezi Açık Arşivi. Please select one of the options below.

Begin a New Item

This will create a new item start editing it and allow you to attach files. You must *deposit* the item for it to be added to the repository. Deposited items will not appear until they have been checked by a person with that responsibility. You should review your existing items if you can't remember if you have deposited an item or not.

Undeposited Items

These are items you are currently in the process of depositing. These will not be considered for the repository until you *deposit* them.

Life: an unauthorised biography	Edit, Deposit, Use as template, Delete

Pending Items

Uygulama Öğretmenliğine Ilişkin Tutum Ölçeği Geliştirilmesi	Deposited 12 October 2006
THE EFFECTS OF COMPUTER ASSISTED ENGLISH INSTRUCTION ON HIGH SCHOOL PREPARATORY STUDENTS' ATTITUDES TOWARDS COMPUTERS AND ENGLISH	Deposited 12 October 2006

Most Recently Accepted Items

View/change your user record

Select this option to see your user record, and to correct or update your user information.

Change your subscription options

Select this option to change your subscription. This allows you to instruct the repository to automatically email you with lists of documents deposited that match your criteria every day, week or month.

Change your Email Address

Change the email address which eprints has for you.

Change User Login

Log in to the repository as a different user. There is currently no "logout" feature.
