Seal (musician) - Wikipedia, the free encyclopedia

Seal Henry Olusegun Olumide Adeola Samuel (born 19 February 1963 in Paddington, London, England), known simply as Seal, is an English soul and R&B singer-songwriter, of Nigerian background.<sup>[1]</sup> His name Olusegun means "God is victorious".<sup>[2]</sup> A recipient of BRIT, MTV and Grammy Awards, Seal is known for his numerous international hits. He is married to German model Heidi Klum.

**Early life**

He was raised in a district of the City of Westminster in inner London by his foster family. He received a two-year diploma, or associate's degree, in architecture and worked in various jobs in the London area.<sup>[3]</sup>

Although there have long been rumours as to the cause of the scars on his face, they are in fact the result of a type of Lupus called Discoid lupus erythematosus - a condition that specifically affects the skin above the neck.<sup>[4][5]</sup>

**Music career**

**Early career**

After a short time singing in local clubs and bars, in the 1980s, he joined Push, a British funk band, and toured with them in Japan. In Asia, he joined a blues band in Thailand for a while before separating from the group and journeying throughout India on his own. Seal returned to England, sleeping on the couch of friend Julian Bunster, then a model. He sometimes asked him "Do I sing well?", to which he often met the response that he sang better than most current artists. His break came when he met the producer Adamski. He was given the lyrics of the song "Killer",
